

Parental Agreement for Student Participation Mode

I, [**Parent/Guardian Name**:-----], acknowledge World Green Hub's commitment to implementing an adaptive learning approach tailored to each student's unique needs. I understand that my child [**Student Name**:-----] is invited to actively participate in online classes, and I have the opportunity to select their preferred mode of engagement. This flexibility ensures that my child can participate in a manner that best suits their well-being.

Please indicate your choice by ticking the appropriate options:

- 1. My child may use the webcam for visual participation during live class sessions.
- 2. My child may use the microphone for verbal interaction when necessary.
- 3. My child may participate through written communication, such as chat or discussion forums.

Importantly, I understand that the choice of any combination of these options should not impact my child's grades or standing in the course, rather fostering an environment conducive to thriving and successful learning experiences. I appreciate the school's dedication to fostering an adaptable and supportive learning environment. **By signing below, I confirm that I have read and understood the terms of the Parental Consent for Student Participation mode during online class session.**
